

```
#contentWrapper #fs, #sidebarContent #fs, #contentWrapper div [id * = 'myExtraContent'], #sidebarContent
div [id * = 'myExtraContent'] {display: block;}
```

Kermith's workshop (<https://translate.googleusercontent.com/depth=1&hl=en&prev=search&pto=aue&rurl=translate.google.com>)

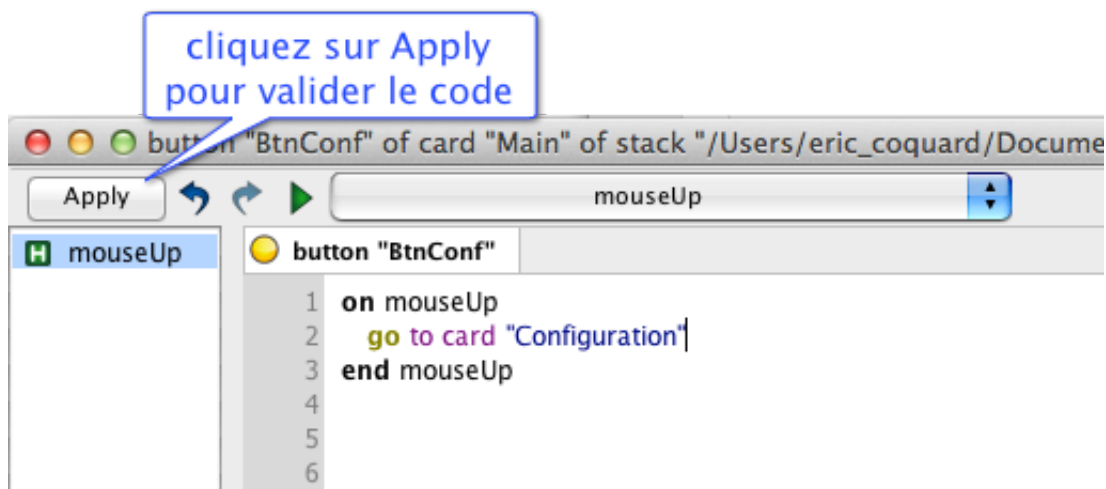

The other way to see supervision ...

Navigating the maps

Now let's see how to move through the cards with the code. Go to the main map, right-click the button and select **Edit Script** .

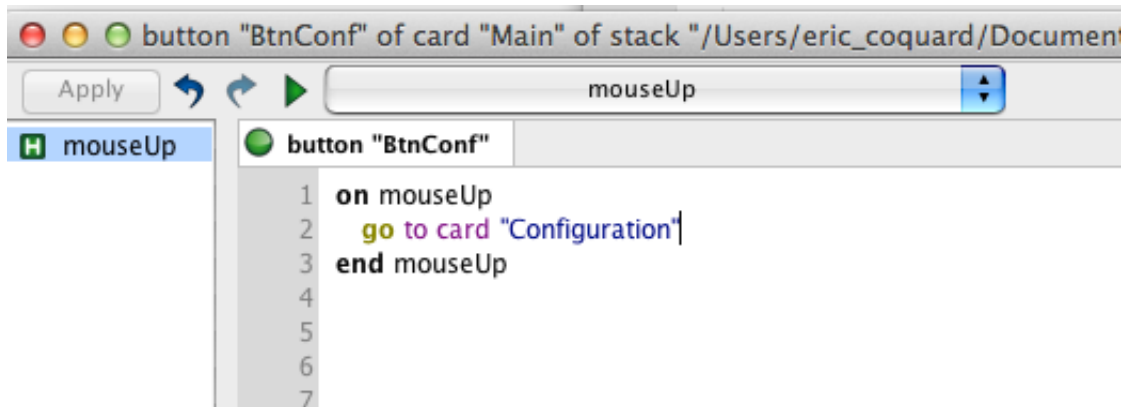

You get a new code editing window. Enter the code allowing you to go to the configuration card.

code being entered

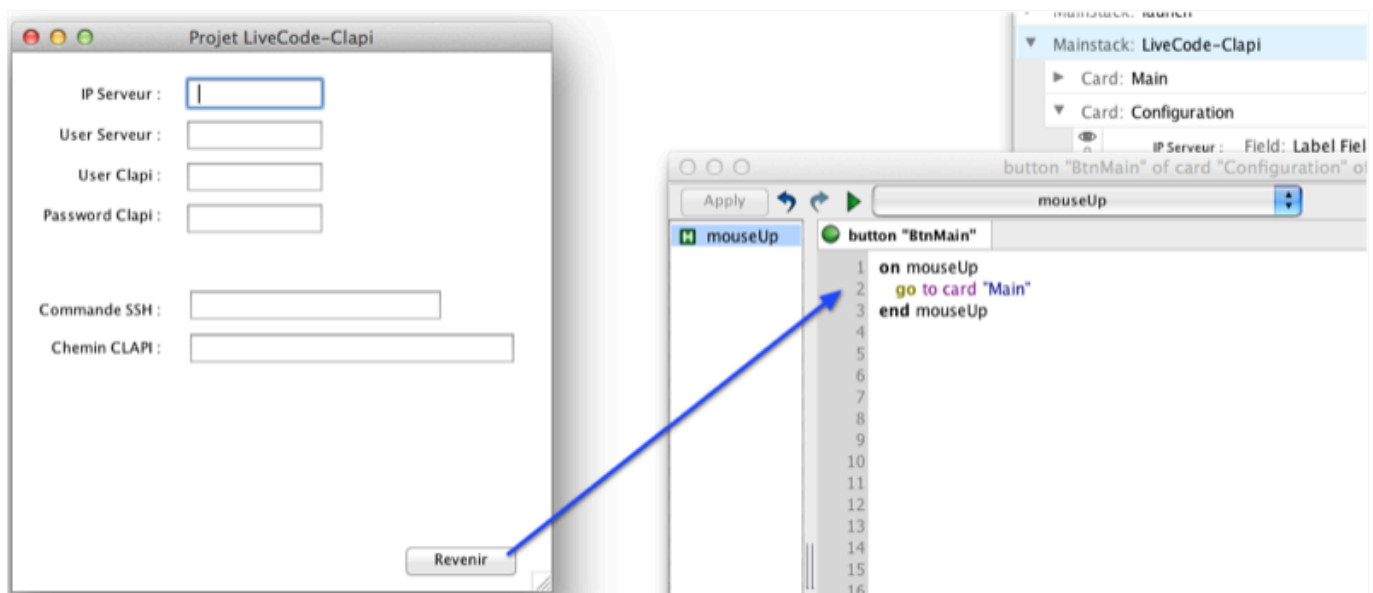

```
on mouseUp
    go to card "Configuration"
end mouseUp
```

Once the code has been entered, it is not yet validated by the programming environment. This is indicated by the yellow icon on the object's script tab. You must click on the Apply button to apply this code.

validated code

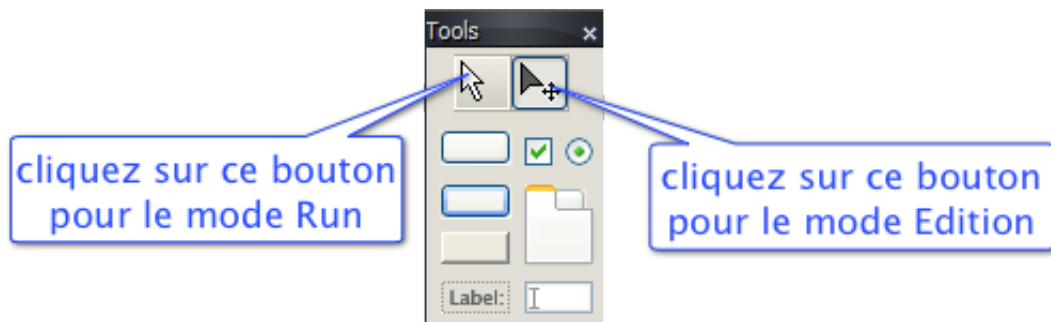

The code is validated, the icon is green. It can be used immediately. Let's go to the button on the configuration card.

Back button script

```
on mouseUp
    go to card "Main"
end mouseUp
```

We can immediately check our programming. Just put yourself in Run mode and it's very simple. Click the arrow button at the top of the tool window inspector.

Run mode and Edit mode

You can check the functioning of your application by moving from one card to another? To return to Edit mode, click on the button on the right of this same window. Practical, right? We will continue with our first Clapi order, listing the pollers in our infrastructure (https://translate.googleusercontent.com/translate_c?depth=1&hl=en&prev=search&pto=aue&rurl=translate.google.com&sl=fr&sp=nmt4&u=https://v
